

DYNAMIC LTL PRICING

Access instant, competitive rates for your LTL shipments

Dynamic LTL pricing allows customers to receive fast, simple, competitive rates without negotiating a published price. This simplified structure gets the right price on each shipment by leveraging available capacity within the ABF Freight® network.

A fast, easy and reliable pricing option

- ▮ Class and NMFC item numbers are not required to receive a rate
- ▮ Rates are available through your desired channel: web, API, or phone
- ▮ Special services are included in the all-in rate if provided at time of quote
- ▮ Dynamic LTL prices are available for shipments within the U.S., Canadian cross-border shipments, Alaska, Hawaii, Mexico & Puerto Rico

Quality service. Simplified rates.

Start quoting your shipments to get the premium service you expect from ABF Freight at a competitive price. All you need is an account number and arcb.com login credentials to get started.
